

## Record CD and DVD Nero Express

Nero is one of the most powerful software for burning discs. She has a lot of features though most people don't use half of what she's capable of. We will learn to record on a blank CD or DVD using the Nero Express since it is the most simple and convenient. To open it click the start button, select Programs All programs in the list that appears, locate and open Nero Nero Express. At first, the program prompts you to select the data type Data Music video Picture project Image copier. We will write to CD or DVD disc with the help of Data. The fact that this option is universal, through it we can write the text and pictures and music and videos. And will open this disc on any other computer not only on Your. Click on the item Data. On the right side of Nero select the disc you want to burn information in a CD or DVD. Just remember to insert a blank disc into the computer. Opens a new window. Click on the Add button on the right. A window will open overlapping the program Nero. Locate the files and folders you want to record. Please note on the left side you can choose another place Computer Documents, etc.. When You find in the box the desired files and folders to add them in. To do this click once with the left mouse button on the file or folder you want to record and click the bottom Add button. You can add as many files and folders important to make sure the disk is not full. To do this, the program Nero below is the strip. While the place lacks a bar is filled in green. Make sure that it does not become red. This would mean that the disk is full. Once You have added files and folders, close the window from which they are chosen and click Next. After that, the window will change. Click the burn button the Burn. And wait. The process of writing. When the disc is written it is likely he will jump out of the computer and program Nero displays a small box in which is written the Burn completed successfully or something like that. Click OK in this window then the Next button on the bottom right and close the program
